To: 'John Dooley'

Subject: RE: HSE/CIBSE ABOLITION OF FRESH AIR VENTILATION

Mr Dooley,

No nothing missed. The next meeting of the I Mech E Construction Division is later this month. I was planning to raise this matter there and ask my committee for opinions on how to deal with this serious issue.

I will make sure that it is on our agenda and will report back immediately afterwards.

If they decide that we should invite you to the next meeting , would you be prepared to attend. It will be in June.

Frank
